

Fast Home Offers launches LeadFeed – RSS Leads for Investors

DALLAS, Texas – June 15, 2005

Fast Home Offers™, one of the largest home buying services in North America, continues to revolutionize how real estate investors and agents operate by today launching LeadFeed™, a service that allows investors and real estate agents to subscribe to leads via RSS – the technology using XML that powers online news outlets, blogs, and other syndicated content.

“By integrating RSS into our offering, customers can use third party products such as Bloglines, Feedburner, and Mozilla Firefox to view new leads, subscribe to markets, and purchase additional services” said Jeremy Brandt, President of Fast Home Offers.

To subscribe to Fast Home Offers LeadFeed™ service, visit www.fasthomeoffer.com/rss/

About Fast Home Offers:

Founded in 2003, Fast Home Offers™ (www.fasthomeoffers.com) is one of the largest and fastest-growing home buying services in North America. With over 3,000 investors in its network the company has broad coverage in the United States, Canada and Mexico. In 2004 the company's home buyers worked with over 23,000 home owners representing in excess of \$2.7 billion worth of residential real estate.
